# “ We bring buildings to life”

Imagine yourself in the most fabulous building in the world without lighting, heating, ventilation, plumbing. Then, you are left in a hot, dark, uninhabitable shell. Strategic MEP team really brings buildings to life.

We consult with developers/architects to ensure full understanding of the requirements and strive the demands of the people using it. In doing so, we ensure that a building can breath and its occupants can relax in an environmentally sustainable, safe, and comfortable zone. ***Our company promotes the installation and operation of safe electricity wiring systems in premises and are based on the general principles defined in British Standard BS 7671 / IEC60364.*** We work on all types of buildings from single domestic dwellings to large facilities. Each building offers a different challenge which is met by our experienced, qualified and friendly team of engineers.

SAFETY

COMMITMENT

VALUES

TIMELY

SUSTAINABILITY

## MISSION

*Our purpose is to positively impact lifestyles of the communities we serve through consistent, timely, quality, efficient and value added delivery of engineered, innovative and tailor-made technology solutions that constantly exceed expectations.*

## VISION

*Our aspiration is to become a sustainably growing and profitable MEP & Low Current Engineering & Contracting service provider through building effective and efficient operations in UAE and to consolidate Forza Al Khaleej Electromechanical Works as a recognized quality centric brand in all our fields of activities.*

## CORE VALUES

***Integrity:** We trust and can be trusted.*

***Quality:** We always strive for the best.*

***Human Capital:** We believe in our team.*

***Innovation:** We will always find a way.*

***Sustainability:** We respect our environment and community.*

## WE EXPERTISE

*LV Electrical System Design & Consultation*

*LV electrical installation, testing & Commissioning*

*Electrical authority approvals*

*Third party testing & Commissioning*

*All Services from Shop drawing approvals till Power Release*

*Liaison work with Etisalat*

*Permanent & Temporary Electrical & water connection from authority.*

*Liaison work with ADDC (Electricity and Water)*

# WHAT WE DO?

## ELECTRICAL

Electrical systems are generally associated with the lighting and power to a building. We offer electrical systems, providing you with the complete package of Quality. **From Design - Installation - T&C - Maintenance.** Our services are carried out by qualified electricians and ensuring that your company meets all electrical health and safety regulations in compliance with local authority. We are mainly offering Supply and installation of following services.

**DESIGN, SUPPLY AND INSTALLATION OF**  
SWITCHGEAR,  
CONTROL CENTRES, SPECIALISED PANELS  
POWER DISTRIBUTION SYSTEM  
LIGHTING & LIGHTING CONTROL SYSTEM  
LIGHTNING PROTECTION & EARTHING  
BUILDING MANAGEMENT SYSTEM  
HOME AUTOMATION SYSTEM  
ACCESS CONTROL CCTV, MATV & SMATV  
STRUCTURED CABLING SYSTEM  
COMMUNICATION & P.A SYSTEM AUDIO VIDEO,  
INTERCOM SYSTEM  
ELECTRICAL CAR CHARGING SYSTEM  
SOLAR PANELS (PVS SYSTEM)

# MECHANICAL

Mechanical systems most commonly relate to heating, ventilation and air conditioning systems (HVAC). HVAC's goal is to provide thermal comfort and acceptable indoor air quality. HVAC is an important part of residential structures such as single family homes, apartment buildings, hotels and senior living facilities, medium to large industrial and office buildings such as skyscrapers and hospitals, where safe and healthy building conditions are regulated with respect to temperature and humidity, using fresh air from outdoors.

Ventilation system replaces air in any space to provide high indoor air quality which involves temperature control, oxygen replenishment, and removal of moisture, odour, smoke, heat, dust, airborne bacteria, carbon dioxide, and other gases. Ventilation removes unpleasant smells and excessive moisture, introduces outside air, keeps interior building air circulating, and prevents stagnation of the interior air.

**DESIGN, SUPPLY AND INSTALLATION OF**  
**AIR CONDITIONING & VENTILATION**  
**CHILLERS, AHUS AND FCUS**  
**SPLIT SYSTEM & PACKAGE UNITS**  
**HEAT RECOVERY UNITS**  
**AIR FILTRATION & TREATMENT HUMIDITY CONTROL**  
**DUCTING - GI, STAINLESS STEEL, ALUMINIUM,**  
**STEEL & PRE INSULATED REFRIGERATION**  
**COLD STORES**  
**PLANT MANAGEMENT SYSTEMS**

## WE BELIEVE

### ■ **TIMELY COMMITMENT**

*Our highly qualified and technically competent managers, engineers and technicians, allow us to complete multiple ongoing projects within the committed timeline.*

### ■ **QUALITY ORIENTED WORK**

*We have experienced persons employed with us who has been taken onboard to point out our shortcoming of any projects. This enables us to deliver high Quality work with best Service.*

# PLUMBING

Plumbing typically involving pipes, valves, plumbing fixtures, tanks and other apparatus. Plumbing engineering is typically carried out in the forms of a domestic water services and above ground drainage. All of which require careful consideration to ensure relevant regulations are met and water demand / disposal is achieved. Our team of qualified Engineers bring together enormous Electromechanical Engineering knowledge and experience that enable us to offer a full-scale MEP Engineering solutions portfolio.

**DESIGN, SUPPLY AND INSTALLATION OF**  
**SANITARY WARE INSTALLATIONS**  
**COLD & HOT WATER PIPING**  
**PRESSURISED WATER**  
**DISTRIBUTION SYSTEMS**  
**WATER TREATMENT PLANTS**  
**WATER STORAGE TANKS**  
**SEWAGE TREATMENT PLANTS**  
**DRAINAGE & RAIN WATER PIPING**  
**WATER COOLING SYSTEMS**  
**PUMPS & PUMPING STATION**  
**CENTRAL & SOLAR WATER HEATER SYSTEMS**

**No matter how complex a project may be, we undertake its full design and execution from concept to construction, testing & commissioning, handover, and maintenance.**

***Engineers over 15 years' experience in Middle East***

***Quality and safe installation***

***Economical and budget friendly***

***ADDC approval services***

***Electromechanical drawing services***

# **QUALIFIED ENGINEERING TEAMS**

***Our Engineering Management team brings together enormous managerial experience obtained through projects executed in the entire united arab emirates***

Our qualified and experienced Engineering team, comprising of Electrical and Mechanical Engineers, is well versed in applying relevant standards ensuring that the end result surpasses client's expectations, both in terms of quality and performance.

Our Engineers are continuously trained and attend seminars and specialized courses to stay abreast of the most recent codes and standards and technological developments in our field.

MEP we are implementing Benchmarking Performance Assessment, by applying best industry practices, to continuously improve our organizational processes and achieve superior Performance and Quality levels.

Our combined MEP Engineering knowledge and experience render Forza Alkhlaeej as a qualified specialist firm in the sector guaranteeing the delivery of the most suitable and economical solutions to our client.
